

GRADE THREE SCIENCE UNITS

Life Science	Earth Science	Physical Science
PLANTS	WATER	SIMPLE MACHINES
<p>Main Concepts</p> <p>Without plants there could be no life on earth.</p> <p>All plants have common and unique physical characteristics.</p> <p>All plants make their own food.</p> <p>Plants adapt and survive everywhere in the world's diverse environments.</p>	<p>Main Concepts</p> <p>The earth constantly moves water around its surface in a never-ending cycle.</p> <p>Plants, animals and humans depend on the water cycle for survival.</p> <p>Only a small amount of the earth's vast water supply is drinkable.</p>	<p>Main Concepts</p> <p>Energy can be transformed from one form to another.</p> <p>There are six simple machines; lever, wedge, inclined plane, pulley, wheel and axle, screw.</p> <p>Simple machines make work easier.</p> <p>There are both simple and complex machines.</p>
